

Know Your NexRad Colors AND Your Comfort Level

The IMC Club is all about mastering the art of instrument flying. At each meeting we consider a specific scenario that takes us to a decision point.

Then, in a structured manner, we discuss alternatives and personal experiences. In this month's scenario, we'll discuss NexRad colors from various sources and interpreting those colors within the context of other weather information. We will discuss options and personal experiences and comfort levels.

Directions: Aero-One Aviation is the first facility NW of the DHN Passenger Terminal

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
